About Me

Hi! I'm Angelo, a Linux/Cybersecurity enthusiast who is passionate about bouldering, making music and software development. You can usually find me in the climbing gym, Biover Sport, or quietly jamming with my friends (as to not wake the neighbors). I am a sociable person, and get a lot of satisfaction out of creating clean and secure code, but also from improving and sharing this knowledge with others. I hope to find a workplace that makes this possible!
