About Me

Hi! I'm Angelo, a Linux/Cybersecurity enthusiast who is passionate about software development. You can usually find me in the climbing gym, Biover Sport, or quietly jamming with my friends (as to not wake the neighbors). In my free time I'm usually working on my personal project which range from learning Rust, Working on a freelance project, delving deeper into cybersecurity or just creating bots. I enjoy creating software with other people and my goal is to find a challenging environment that encourages learning and sharing knowledge.
